

Passive LGX-compatible Chassis

Wave2Wave's Passive LGX-compatible Chassis is constructed with the highest quality and customization in mind. Wave2Wave offers more flexibility due to its construction based on the customer's specifications. These Passive chassis are perfect for mounting any LGX-compatible passive optical modules. The 1RU, 2RU, and 4RU shelves can be mounted in the standard 19 or 23 inch telecommunications racks. The pull-out shelves on the units make for an easy installation of the modules.

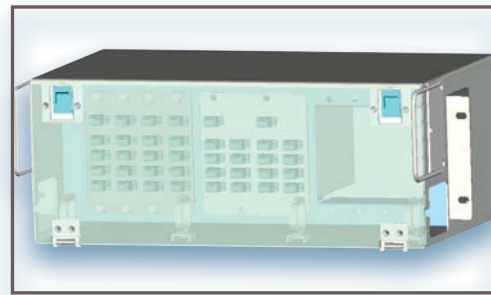

In addition, these chassis can have grip handles on the front for ease of installation into the racks.

Wave2Wave provides the customer with several different options

of customization. The chassis can be constructed with different types of connectors (SC, LC, etc.). Also, Wave2Wave can provide the product with a private label and custom color.

2 RU Chassis

4 RU Chassis

Benefits

- High flexibility to accommodate different LGX configurations (1U, 2U, 4U, etc.)
- Build according to customer specifications (private label, silk screen, color, etc.)
- Customization provided with different types of connectors available (SC, LC, etc.)
- Unique design with grip handles to provide ease of installation into rack
- Scalable, grow as you go

Features

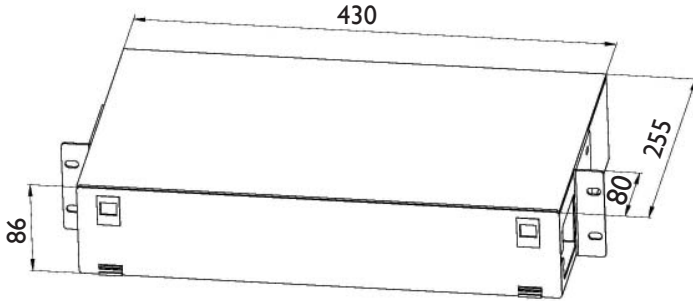

- LGX compatible
- 1 RU, 2 RU, 4 RU Rack-mountable in 19 or 23-inch racks
- Solid Steel Construction
- Customization
- Grip handles to provide ease of installation into rack

Applications

- Telecommunications
- Local Area Networks
- FTTX

Environmental Compliance

- Telcordia GR-326-CORE
- TIA/EIA-568B.3 Fiber Optic Cabling Components Standard
- IEE802.3z Standards for Fiber Optic Cabling
- RoHS Certified for European market requirements

**Sample drawing shown, actual mechanical dimensions may change due to customer specifications.*

Product Number	Description
70-102	1RU, 2-slot LGX-compatible rack-mount chassis
70-204	2RU, 4-slot LGX-compatible rack-mount chassis
70-412	4RU, 12-slot LGX-compatible rack-mount chassis
